POSTCARD - BACK

AFLA Ltd is currently working on a variety of different housing projects in and around Wales and the South West.

A number of these projects are for housing associations and are being built to BREEAM Code for Sustainable Homes standards. Other projects are for major house builders including Newlands and Linden Homes. We have also been creating bespoke garden designs for a variety of private homes. The sites vary from urban to National Park settings and the landscape designs all have to address local sensitivities.

In all our designs we consider the long-term maintenance of the landscape and all of our schemes are supported by a management plan.

More detailed information regarding all of these projects can be found on our website, www.afla.co.uk

For further information, contact Alex Fraser (Practice Director) on:
