

POSTCARD - BACK

We recently received good news from the seaside with two unique landscape projects being passed by the local planning authorities.

The first project is at the Gara Rock Hotel in the South Hams AONB and our plans were prepared to blend in with the semi-natural cliff top landscape, provide habitat for wildlife and give visitors gardens to enjoy. The second project is a private dwelling on a cliff top in Clevedon, North Somerset. The scheme required a more architectural planting scheme to complement a modern building. Evergreen shrubs set off exotic Agave plants clustered around an ornamental pool and a sheltered courtyard is to be filled with palms, ornamental grasses and beautiful flowers.

Both schemes suffer from exposure to high winds and salt spray, so getting the planting established will be a test. For this reason we included a 5 year management plan with our proposals.

For further information about this project and our design service, please contact Alex
